# BILLBOARD

## Overview

The Billboard is a premium, extra-large leaderboard-style ad unit that provides a large branded opportunity. It remains fully expanded, unlike typical Pushdown units that close automatically.

## HTML5 Requirements

- HTML5 creative may be first-party served or third-party served from an approved third-party vendor.
- HTML5 creative served first-party must adhere to the following:
  - Must use a single click-through URL.
  - Cannot include in-banner video or interactive features such as photo galleries or mouse-over effects.
  - File references in the HTML5 code must use relative file paths.
  - Assets must be submitted as .zip folders containing all applicable files—one .zip folder per creative.
  - HTML5 creative must be “plug and play”—assets must be delivered in a state in which the main HTML5 file can be opened and function correctly. HTML5 creative which is not in a functioning state will be rejected.
- HTML5 creative served via an approved third-party must be delivered via javascript or iframe tag. Raw files will not be accepted.
- The file weight listed above applies to all HTML5 files and assets including images, HTML/JS/CSS files, custom fonts, or other assets.
- HTML5 creative requires a minimum lead time of five business days for testing and approval.
